Subject: Microsoft Settlement

I wish that I had the time to write a response that would reflect my complete disgust on the attack of Microsoft by our government's abusive use of power and influence. Simply I want this government's action against Microsoft only for the benefit of Microsoft's unsuccessful competitors to come to an end. We need to get on with the economy and tremendous prosperity that we enjoyed before this government's overzealous bueracrates and these cry baby spoiled brates from Sun Microystems Oracle and Netscape helped take this country into recession. Accept the settlement and get on with life!!! How stupid! Take the most productive and successful company in the world and try to destroy it! What a bunch of idiots!! I said this as nice as I could with this much anger!!! You should hear the way I really feel about it!!
